BE ČIMS AWARE

Bear sighted in upper Anacla behind the Huu-ay-aht Government Building. (Headed towards the river) April 13, 2022

It's SPRING! čims are now emerging from hibernation.

- Report all sightings and encounters to the RAPP line (1-877-952-7277). All reports are tracked so issues can be addressed before they escalate.
- Keep garbage, food and attractants (compost, fruit trees, barbecues) secure in čims-proof locations.
- Scare away čims in the community with lots of noise. It doesn't seem neighborly, but preventing čims from feeling at ease around humans keeps them safer in the long run.

NUU-CHAH-NULTH PRONUNCIATION

HARD SOUNDS

An important category of sounds are what we call the Hard Sounds. Another name for them is "glottalized resonants". The sounds in this group are are m', n', w', and y', and they have the apostrophe in the symbol to show that they have a stop sign as part of the way the sounds are made. Actually, even thought the mark seems to come after the letter, the catch in the breath comes before the sond of the letter. Listen to the following examples of words with hard soundsin them:

m' - m'uksy'i - stone
nism'a - land or world
m'iƛaa - rain

w' - qiwaḥ - steel-head
t'iquw'iɬ - living room

n' - n'upu - six
kʷan'is - camas
ƛ'iin'a - oolichan grease

y - ƛicy'up - clover
y'am'a - salalberry

Back Sounds

We have already covered the back sounds and the rounded sounds, but it is useful to see them arranged as categories of sounds. Remeber that back sounds are those made at the back of the mouth.

The back sounds are these distinguished in terms of their corresponding "non-back sounds".

Non-back Sound		Back Sound
k	--	q
kʷ	--	qʷ
x	--	ẋ
xʷ	--	ẋʷ
h	--	ḥ

Round Sounds

The rounded sounds are these, distinguished from their corresponding non-rounded sounds:

k	--	kʷ
kʷ	--	xʷ
x	--	qʷ
xʷ	--	ẋʷ
h	--	k'ʷ
