ANACLA

RECOVERING, COLLECTING AND SHARING OUR LANGUAGE

The Huu-ay-aht Social Services Project Evaluation 2020 highlighted "There is a keen interest by many in having more cultural events and programs, as well as better access to greater language and cultural education.

We are interested in connecting with language speakers, storytellers and knowledge keepers about Huu-ay-aht history, stories and language. Huu-ay-aht is partnering with First Nations Education Foundation to ensure our language is recovered and collected so we can share it with present and future generations.

We will be hosting Community Language Dinners in Port Alberni and Anacla to discuss this exciting project and how YOU can be involved.

Calling all youth aged 15(ish) to 30 years old. WE NEED YOU!

Come for a pizza and salad feast, collect a $30 gift card for a local business and be put in a draw for a $250 Walmart gift card.

Why? As part of the Community Building Youth Futures program, we need to hear from our local youth on what it takes to build a healthy future. Is it a certain course, a program, event, or support of any kind?

Join us and stay for basketball! A ride to the event from Anacla will be provided if needed. Anyone needing support in transportation otherwise, contact us and we will help! Please rsvp bcsacoordinator@gmail.com so we can be sure to have enough supplies and be sure to assist in transportation costs. Questions? Call Sally at 250-728-1220

Let's Talk About Teeth: Eating for Healthy Smiles

island health

Meals and Snacks

- Every time we eat, teeth are exposed to acid and there is a risk for developing tooth decay.
- Teeth need breaks between meals and snacks to recover from acid exposures.
- Less grazing throughout the day helps children build healthy smiles.

Healthy Snacks

- Offer a snack containing two food groups between meals.
- Vegetables, fruit, cheese, nut and seed butters and whole grains are some options.
- Check out Canada's Food Guide for more ideas.

Reduce risk of tooth decay.

- Limit sticky/sugary foods and sweet drinks (dried fruit, chips, crackers, candy, juice).
- Avoid using food as treats or rewards.
- Rinse with water after eating. Brush with fluoride toothpaste twice daily.

Positive Mealtimes

- The adult decides what foods to eat, when and where. Let the child decide whether to eat and how much.
- Sit down and eat with children as often as possible.
- Kids thrive on relaxed eating times and regular routines.

Public Health P-303-18-22

If we graze all day, the greater the risk for tooth decay!
