AIRS
(Alberni Indian Residential School)

Trigger Warning: The following may be triggering for some. Support is available and information about cultural and mental health supports are available at the end of this notice.

Tseshaht First Nation has announced that the Alberni Indian Residential School Project (AIRS) has hired GeoScan to conduct Ground Penetrating Rader (GPR) and other appropriated scanning techniques and will begin their work in the former residential School area starting on July 11/22 for 2 weeks. Following the scanning, a report will be written and released.

Scanning will be conducted with compassion and care as to not disrupt possible burial locations.

We recognize that this work may be difficult for those who carry memories connected to AIRS and want to ensure you are supported.

BE ČIMS AWARE

Be ḱayuumin aware

If you see a čims:
Scare away čims in the community with lots of noise. It doesn't seem neighborly, but preventing čims from feeling at ease around humans keeps them safer in the long run.

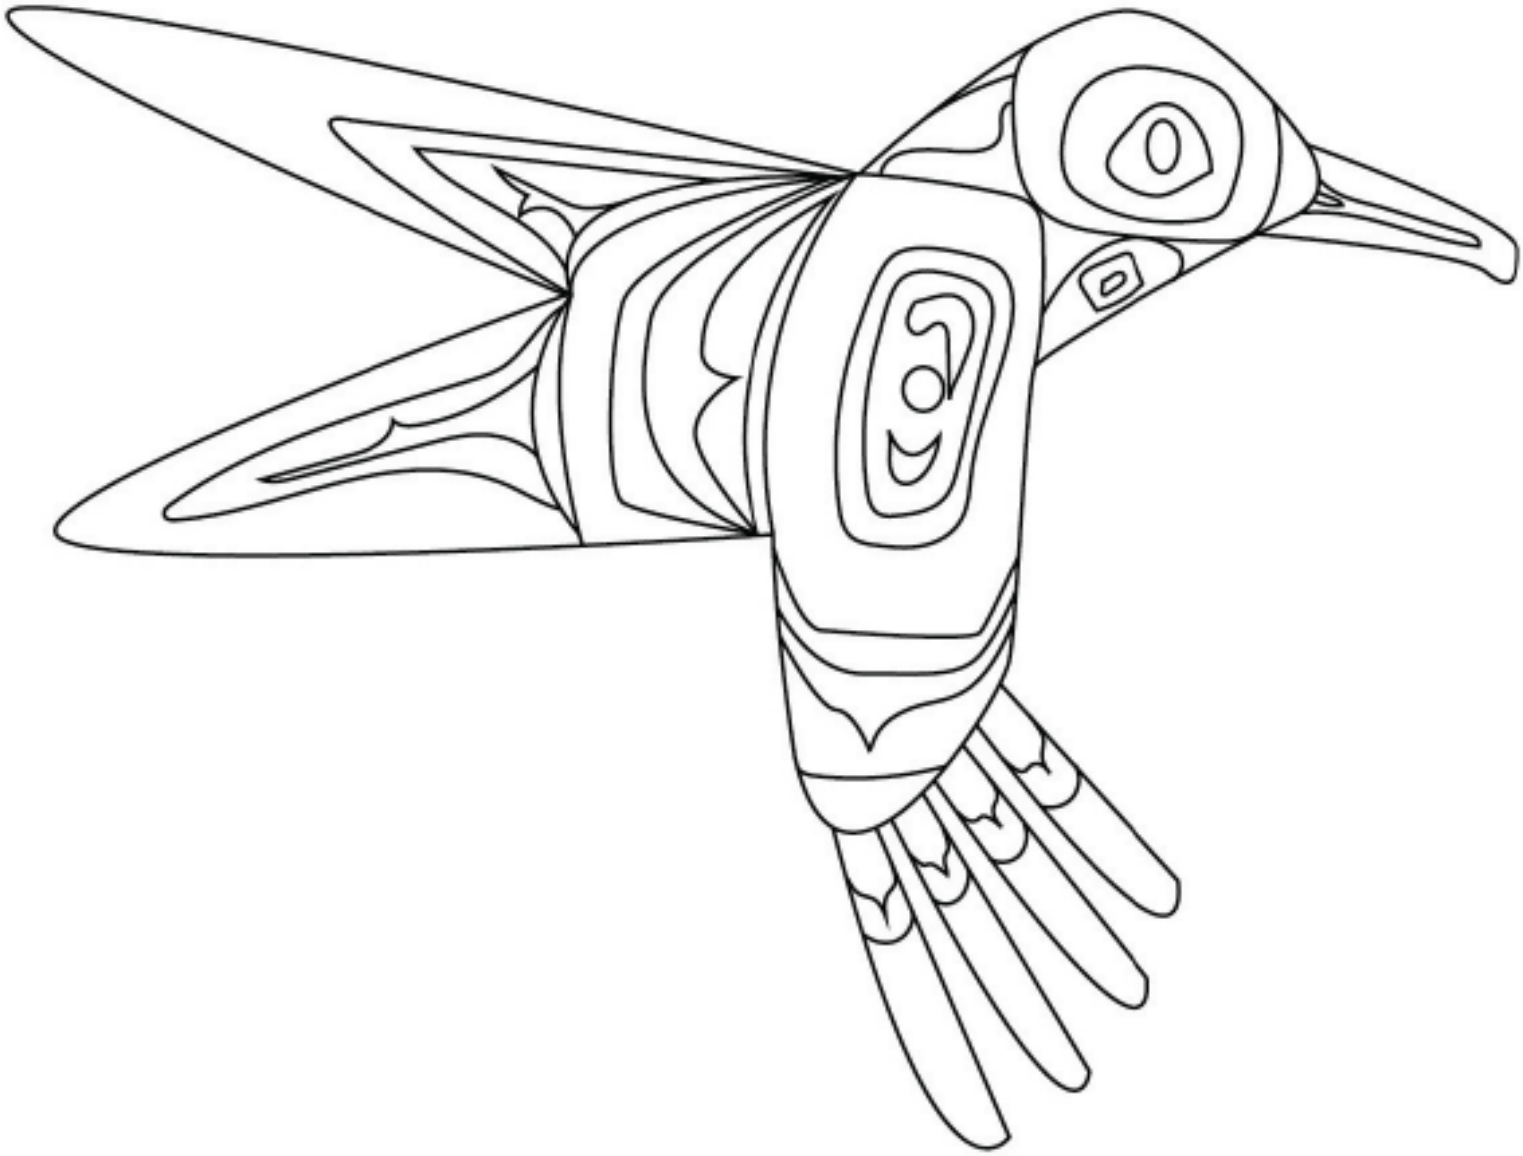

If you see a ḱayuumin:
DO NOT RUN. Do not crouch down. Pick up small children and keep the group together. Back away slowly, maintaining eye contact with the animal as you leave. Yell, wave your arms, look large. If you have one, use an air horn.

Report all wildlife observations and encounters at 1-877-952-7277 (RAPP) or online
