We're looking for your photos for the 2023 Huu-ay-aht calendar

We would like to share photos from the lives of our citizens in the 2023 Huu-ay-aht calendar.

Please send a high-resolution of your favourite photos to danielle.t@huuayaht.org. We will do our best to run one from every contributor, so tell us who took the photo, please.

ANACLA HOUSING UPDATES

Anacla Building Lots Update

The six lots that have been allocated to Citizens to construct their own homes are now available. The road in has been constructed, but not finished yet and services are into the lot lines, including sewer and water.

These lots are available at a cost of $1 per year on 99-year leases. Citizens will be responsible for their own financing.

However, the lots themselves have a value that could be included as equity in a project when discussing financing. In addition, citizens may group together in family units to construct housing. While there will be building requirements, multi-family units are possible. These lots are only available to citizens.

The first step in the process is to prepare and submit an expression of interest. This should include:

1. A list of all adults included in the application.
2. Type of unit interested in constructing.
3. Plans for financing the construction.
4. Lot number interested in.

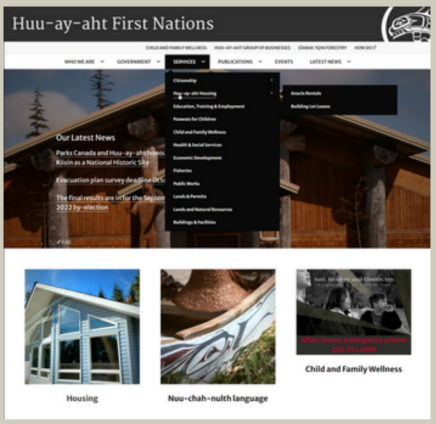

Expressions of interest should be submitted by September 30, 2022. Contact Jim Lee at jim.l@huuayaht.org for further information and questions.

Jim Lee is no longer managing rental housing in Anacla. Charlie Clappis will be overseeing housing rentals. Charlie be reached at rentalhousing@huuayaht.org

Brad and DeeAnna Dennis have invested over 20 years in developing a thriving family life by interweaving their Christian faith in Creator God with Huu-ay-aht teachings. This process has involved decolonizing their Christianity, learning from their Huu-ay-aht ancestors and using the tools they have developed in their professional practice as mental health professionals with children and families. Their workshops are designed to meet the needs of people with various learning styles. So they use stories, interactive exercises visuals, and scientific research.

Bamfield Road Construction NOTICE

DO NOT drive around the automated flag at the construction site. The construction crew is working to minimize the delays and they are no more than **15 minutes**. You need to wait for the pilot vehicle to guide you through this section of construction. Driving around the flag is putting the workers and yourself in danger. The flags are also being vandalized. Both of these are **criminal acts** and the **RCMP** are now involved. There are cameras to monitor the traffic in these areas and action will be taken if this happens again. By causing these issues it is going to delay opening the road and may require more strict actions for the traffic.
ʔeekoo (Thank you) for your cooperation.

Sarita Chinook Citizen Harvest

HFN Natural Resource Department is proud to report a successful 2022 Sarita River Chinook Harvest!

After strategic planning for the past four years, the Huu-ay-aht government was able to implement the economic opportunity harvest on the enhanced hatchery chinook returning to the Sarita River.

This program is a three-pronged objective: 1. Increase the natural (wild) DNA in the Sarita River to improve healthy returns, 2. Establish an annual economic opportunity for Huu-ay-aht Citizens through the harvest of hatchery chinook, 3. Ensure the rebuilding of the Sarita River Chinook stocks is sustainable for 7 generations.

This year Huu-ay-aht had 10 citizens participate in the harvest, they worked hard, long days. The group worked together with Huu-ay-aht Government staff to ensure the right fish were harvested sustainably and the wild fish were released into the river to spawn. The Sarita Chinook return is observed to be abundant this year with over 2200 adult Chinook in the river.

This runsize allows Huu-ay-aht to take 500 fish to the hatchery as brood stock and 1000 marked hatchery fish as harvest. Huu-ay-aht Natural Resources Operations Manager was able to get a good price from Cold Fish Seafood and all profits were split between citizens who helped with harvest.
